

Black Country Route Pathway Improvements

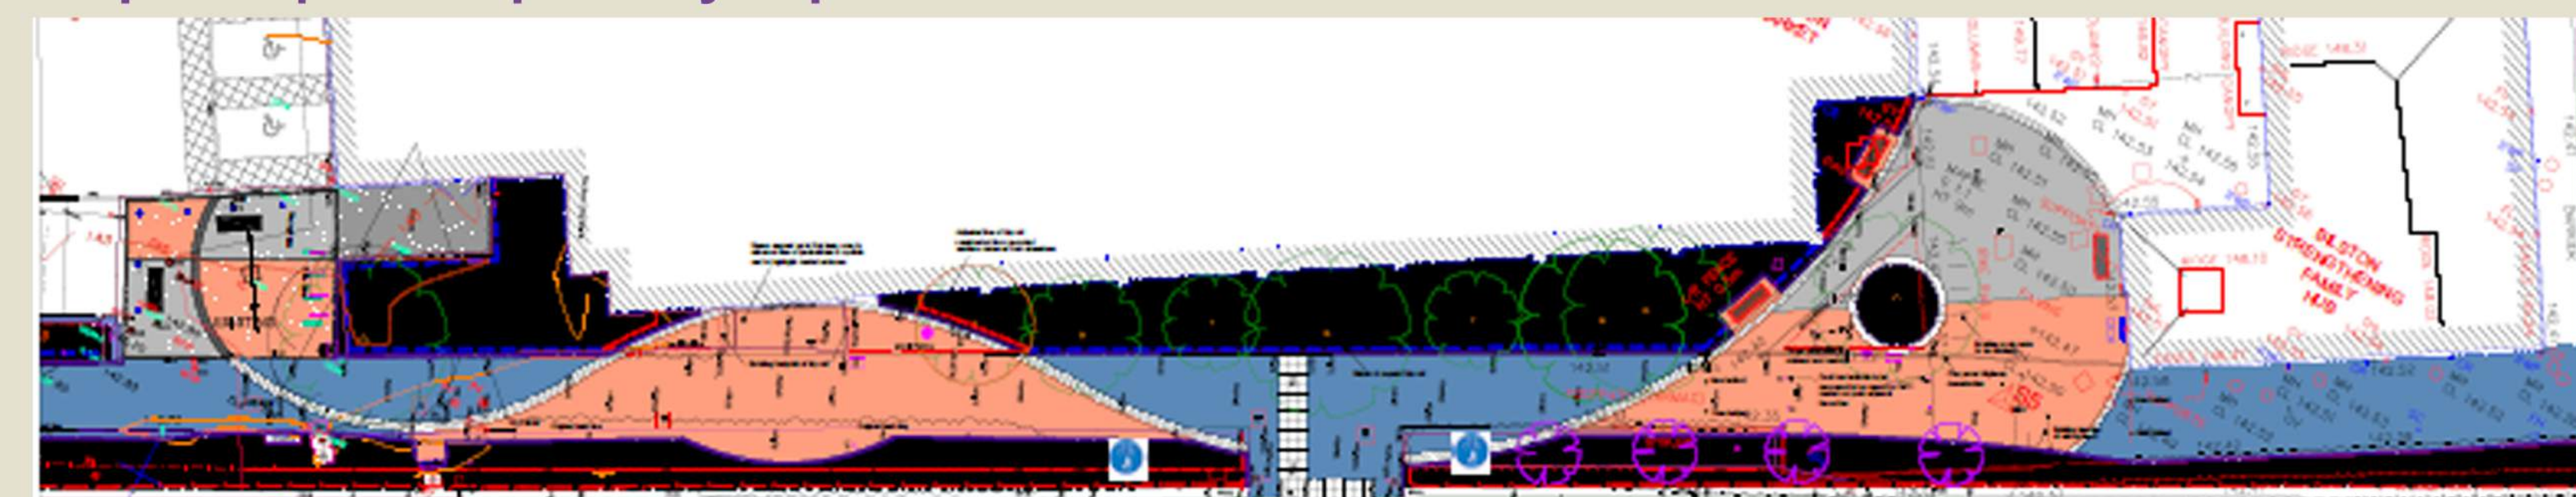

How could the pathway along the Black Country Route be improved?

City of Wolverhampton Council is planning to improve the pathway along the Black Country Route in Bilston. This is the area marked in red in the picture. The improvements are between where Bert Turner Boulevard joins the pathway, along the Black Country Route to the Bus and tram station.

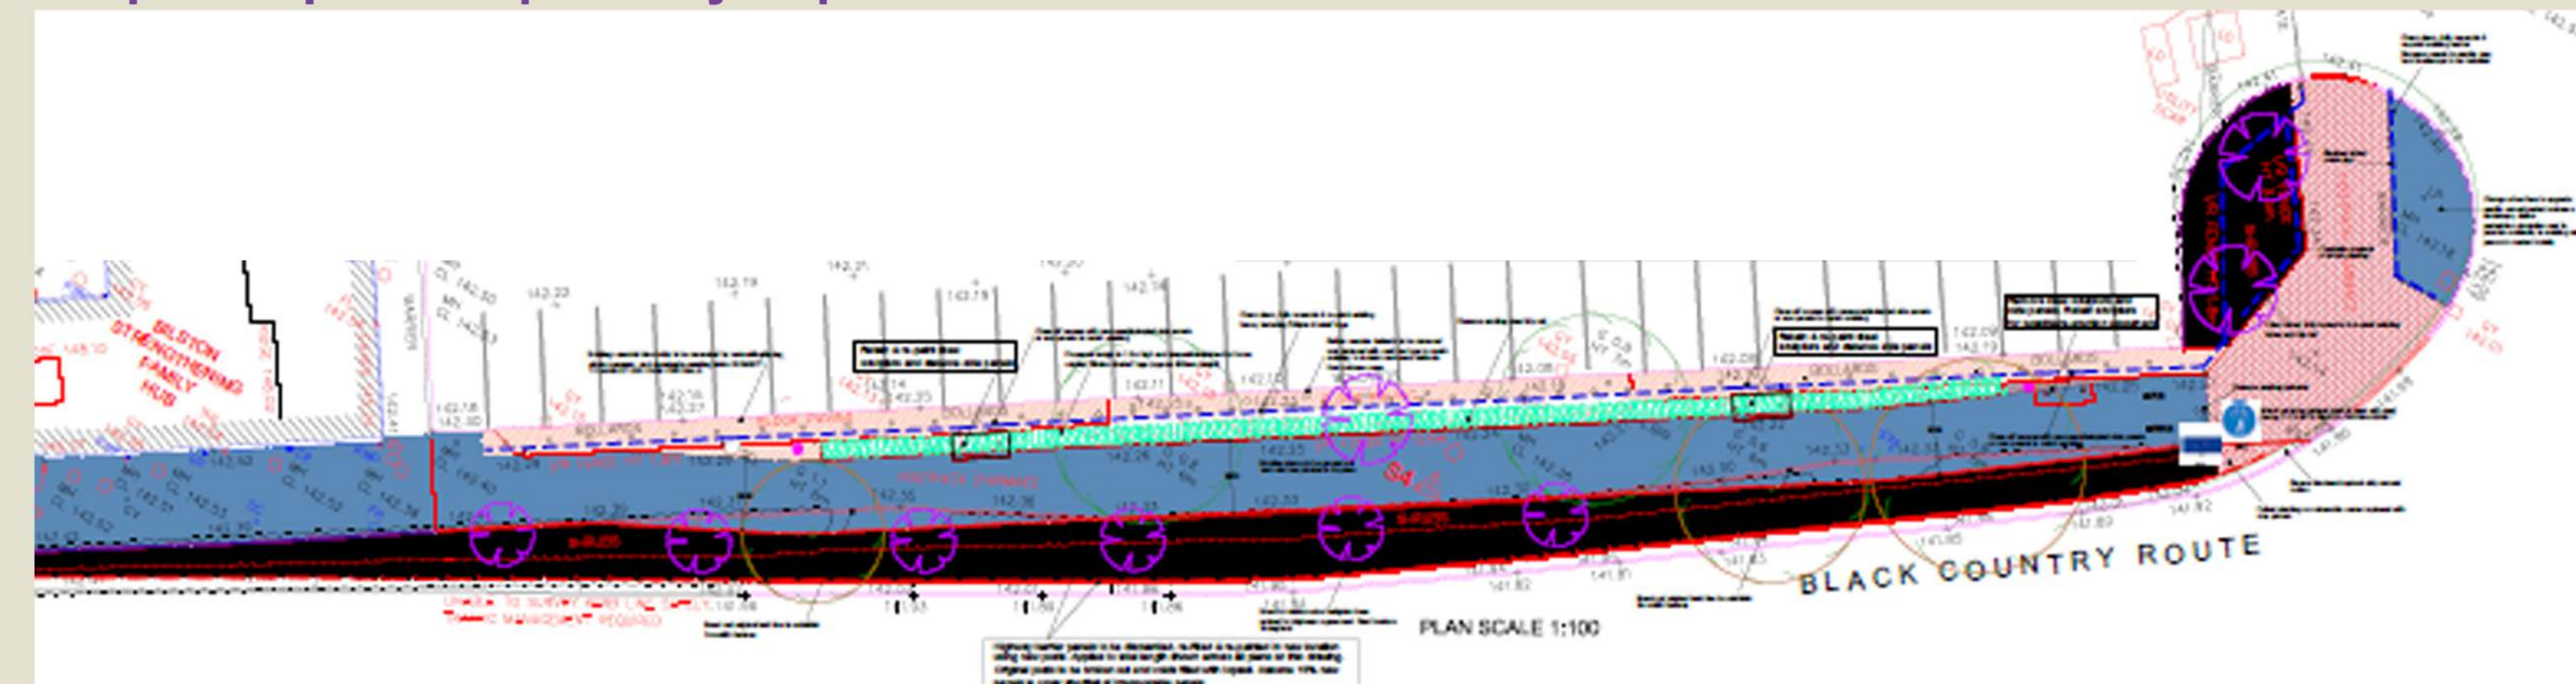

We need your help by telling us what you think about the proposed improvements. Take a look at the plans, the artist's impressions and the 'Improvements at a Glance' before taking part in the online survey.
